24h

24-hour online  
service for customers

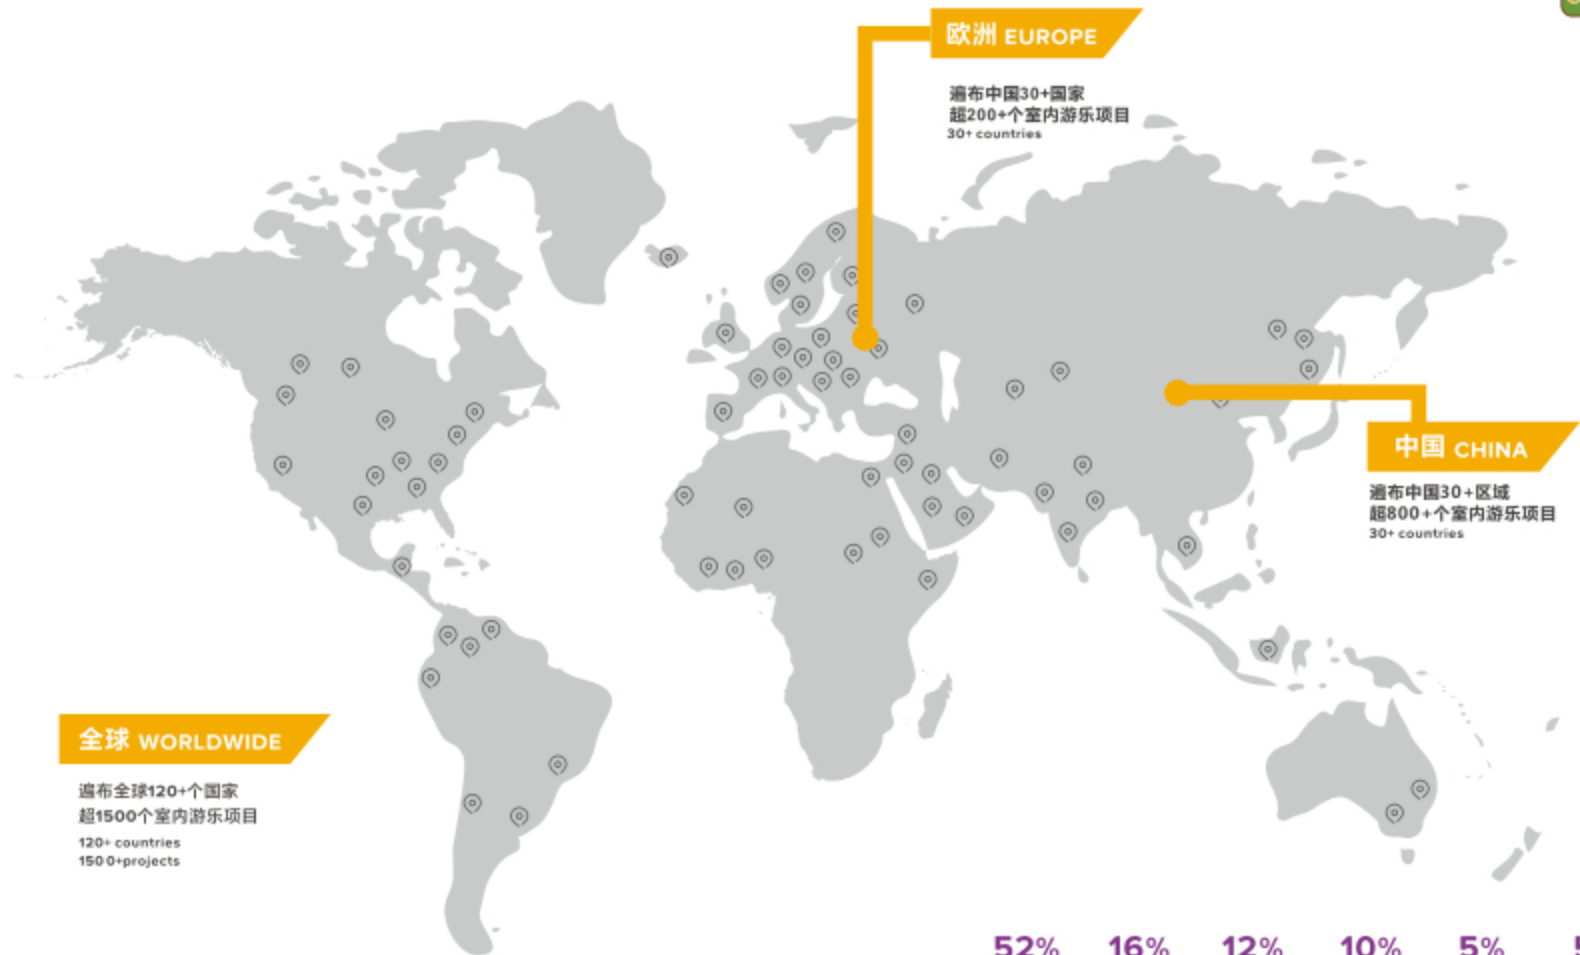

All facilities in this children's amusement park strictly adhere to safety standards. Core materials have passed authoritative tests by SGS and TUV, complying with the EN1176 safety standard for children's play equipment and ISO international quality system certification. From the soft wrapping layer of the indoor playground to the load-bearing parts of the climbing frame, food-grade environmental-friendly PE materials and high-elastic flame-retardant sponges are adopted, which are non-toxic, odorless, tear-resistant and wear-resistant, eliminating harmful substances such as formaldehyde and heavy metals. All edges are processed with a rounded corner grinding technique to effectively prevent collision injuries. Backed by multiple international certifications, we create a safe playing space for children, reassuring parents completely and truly achieving "joy without hidden dangers, and growth without worries".

**\*Plastic \*metal \*soft play \*packaging**

Our production workshop, with over 50 staffs , specialize in 4 main areas, (Plastic, metal,soft play and packaging.)We are committed to research and develop, produce and sell children's playground equipment all over the world, Our aim is to form a partnership with our clients and provide them with an efficient and professional "one stop" service.
